- HTML
- CSS
- Javascript
- PHP
- Node.js | Express | Socket.io
- MySQL
- Git | Github
- Figma | Photoshop
- C++

Languages

Español
Native Speaker

English
Conversational

In my international experiences I had to communicate fully in English

Experience

Developed applications using React.js and also using React Native.

Developed and connected both Front-End and Back-end.

Developed my own REST API's using Node.js and Express.

Consumed and integrated different public API's.

Used Redux to manage my state application.

Designed and prototyped my projects in Figma.

Managed and deployed my applications in cloud web servers.

Integrated web services with microchips like arduino using MQTT.
